Skills

Frontend Developer & UI Designer with several years of experience in designing and developing modern web applications and user interfaces. Successfully delivered 30+ UI/UX projects for government websites, managing the entire process from design to frontend implementation. Experienced in developing scalable frontend solutions and contributing to the development of proprietary CMS platforms, including Spirit Portal at Niafam. Skilled in React, Next.js, JavaScript, UI Design, and frontend architecture. Currently working as a Frontend Developer and Technical Support Specialist, responsible for designing, developing, and maintaining enterprise-grade financial management systems using Next.js.
